Summary

Litters registered: 46
Puppies: 209, 111 males and 98 females
Average litter size: 4,5
Average inbreeding: 0,702 %
Imported dogs: 3

The breeding in 2018 showed the highest number of litters and puppies registered in one year in Denmark so far. But still we do not have enough puppies compared to the request on the breed.

In 2016 we observed a high number of insemination and cesareans, a tendency that decreased in 2017 and remained low in 2018.

In 2018 the Club hosted 8 dogs shows with a total of 212 participating dogs in official classes. For the 13 Kennel Club shows, a total of 224 Icelandic Sheepdogs have been participating in official classes. From the 21 shows, a total of 123 unique dogs participated.

A total of 45 dogs participated in mentality description in 2018. One dog was stopped after the auditory surprise. The lack of curiosity was mentioned as a problem in 2017, this is still a problem in 2018. The fear did decrease a little, but we still need to be aware of this problem.

In respect of herding, only 6 dogs were described in 2018. In total, 194 dogs have been described since 2008.

Louise Roer, Chairman
Else Westermann and Tove Møller Christensen, Breeding Committee

Statistics overview and comments, shows, descriptions

	2018	2017	2016	2015	2014	2013
Litters	46	30	43	24	26	29
Puppies registered	209	147	172	107	111	130
Average size of litters	4,5	4,9	4	4,5	4,3	4,5
Average inbreeding %	0,702	0,495	0,437	1,05	0,562	0,5
From this: insimulation	3	3	13	1	3	1
Cesarian	1	4	10	4	4	2

We have no information about how many (or few) bitches is going empty after a normal mating.

In 10 year we have used 141 different males (from those 38 born in other countries), to 176 different females, (from those 20 born in other countries).
