Comment:

The Österreichische Klub für Spitze und Spitzarten is a rather small club within the Austrian Kennel Club (ÖKV). The club is responsible for different Spitz breeds (Wolfsspitz, Japanspitz ...) and for some reason also the Icelandic Sheepdog. Of the total 161 members only about 6-10 members are owners of Icelandic Sheepdogs. This is an estimated figure as the club does not keep a record on the breed each member owns. Normally only owners, who wish to breed, join the club. Our efforts, to convince breeders to sell their puppies including an one-year-membership to the club were not successful.

Events

No important events in 2012.

2013 was until now an interesting and important year for us, as the Icelandic Sheepdog was featured by the "UH – Unser Hund", the official monthly magazine of the Austrian Kennel Club (ÖKV). A picture of an Icelandic Sheepdog was on the front page additionally to 2 A4 pages of information and pictures about our breed with an poster of the ISD on a double page in the middle opening of the magazine. Find a pdf of the report attached.

Litters of Icelandic Sheepdogs in Austrian

	2013 until Oct	2012	2011	2010	2001	1998	1996	1995	1993	1992	1991	1987	1983	1982
Litters	2	1	2	1	1	1	2	1	2	1	1	1	1	1
Puppies registrated	6	6	11	2	3	9	6	11	2	5	5	4	6	6
Average size of litters	3	6	5,5	2	3	4,5	6	5,5	2	5	5	4	6	6
Average inbreeding %	5,5	0,4	7,3	1,5	3	3,45	6,7	4,7	0,7	18,9	12,7	12,9	12,9	12,9

There was only 1 litter of ISD in Austria 2012 with low inbreeding, which is good. Sadly we have 1 litter in 2013 with very high inbreeding with 9,6%. Even several personal telephone calls and long conversations did not help to change the breeders mind.

Looking at the development of the last years we can see, that there have been no litters between 2001 and 2010. With the last 3 years (2011-2013) have been 5 litters with a total of 23 puppies. This is a lot of ISD for the Austrian "market" having in mind, that the breed is little known in our country. Most of the young dogs go to families with or around icelandic horses or horse farms.

Details see next page.

For more detail see here:

Born	Kennel	Father	Mother	Puppies (male/female)	inbreeding
25.02.2012	Keisaraskogur	Manni vom Schloss Neubronn	Dranga Katla	3/3	0,4%
20.02.2013	Keisaraskogur	Heklu Hugi	Stokk Sells Hrafna Stör	2/2	1,4%
05.08.2013	Keisaraskogur	Leiru Somi	Dranga Katla	1/1	9,6%

Details for Imports

Imports 2012 from Iceland

- Stjörnuljósa Stefs Assa IS17446/12 (Arnarstaða Skrumba IS13116/09 X Stefsstells Vaskur IS14239/10)
- Stjörnuljósa Júlla Sól IS17602/12 (Leirubakka Júlía Móa IS11612/08 X Kersins Baldur IS11748/08)
- Stokks-Sels Birta IS17604/12 (Kersins Vina IS09102/05 X Stokks-Sels Verdandi Snjódís IS14336/10)

Imports 2013 until October

from Iceland

- Hvellur frá Olafsvöllum IS18180/13 (Stefstells Stefnir IS11384/07 X Stefstells Frigg á Olafsvöllum IS11738/08)

from Germany

- if everything goes well, there will be a bitch imported from the german kennel Islandhunde fra Dyrgjadottir in November 2013.

Further comments to Imports:

It is rather difficult to follow up with the imports of Icelandic Sheepdogs as it is not necessary to register to the studbook of the Österreichischer Klub für Spitze und Spitzarten unless for breeding. So quite a lot of dogs are with FCI registration but not Austrian registration.

Exports:

Due to a lack in any breeding activity in the period of 2002-2010 there have been no exports in this time. Today most of our dogs stay in Austria but some are exported to, Germany, mostly the south of Germany due to personal contacts of breeders there.

To the NL 2012:

- Drottningin-Tína vom Quellenstein ÖHZB ISL88, born 20.12.2011; Parents: Leiru Somi IS09754/06 X Stokk-Sels Hrafna Klukka IS12156/08

To Germany 2012

- Keisaraskógur Alma ÖHZB ISL82, born: 04.10.2011; Parents: Manni vom Schloss Neubronn DCNH IH 00620/09 X Stokk -Sels Hrafna Stör IS 12158/08
- Keisaraskógur Abba ÖHZB ISL83, born 04.10.2011; Parents: Manni vom Schloss Neubronn DCNH IH 00620/09 X Stokk -Sels Hrafna Stör IS 12158/08

To Germany 2013

- Keisaraskogur Coffee ÖHZB ISL99, born 20.02.2013; Parents: Heklu Hugi IS15052/10 X Stokk Sells Hrafna Stör IS12158/08
- Keisaraskogur Clivia ÖHZB IS102, born 20.02.2013; Parents: Heklu Hugi IS15052/10 X Stokk Sells Hrafna Stör IS12158/08
- Keisaraskogur Dekkja ÖHZB IS105, born 05.08.2013; Parents: Leiru Somi IS09754/06 X Dranga Katla IS14768/10

Stud dogs as per October 2013

Males	number of litters	number of descents
Leiru Somi	2	7
Manni vom Schloss Neubronn	2	12
Hekla Hugi	1	4
Töfra Tryggur Aron	0	0
Females		
Stokk-Sels Hrafna Klukka	1	5
Stokk-Sels Hrafna Stör	2	10
Duna fra Kerlingarfjöll	0	0
Dranga Katla	2	8
Prydi vom Lechfeld	0	0

There are no stud dogs at the moment in Austria who have reached the ISIC breeding limit.

Breeding dogs have to have a “Zuchtzulassung” (breeding licence) in Austria which they only get with hipp examination and eye examination (valid 24 month). Minimum age for breeding is 24 month.

Health

Due to very little breeding activity only few dogs were x-rayed for HD and the documentation of the outcome might have been better in the past. Eye examinations were not requested for breeding until 2011, so there is no data existing.

HD and eye examinations:

Eye examination	2013	2012	2011

Unaffected signifies (free)	4	3	5
Hereditary			
Cataract			
Cornea Distrophe			
Distichiasis			
Others	1		MPP iris 1
In total	5	3	6
In total	5	3	6

Total number of x-rayed dogs	2013	2012	2011
A	0	2	4
B	1		1
C	2	1	0
D			0
E			0
In total	3	3	5

2013

Stjörmuljósa Stef-Assa IS17446/12¹
 Stokk-Sels Birta IS17604/12
 Stjörnljósa Júlla Sól IS17602/12
 Töfra Tryggur Aron IS14418/10
