Events

Walking tours

There were several walking tours in different parts of Finland. The number of participants varied a lot but they were great ways to get to know other ISD owners and also a way to promote our club. One puppy meeting was organized in Helsinki region and it was a success and something to develop further.

The Day of the Icelandic Sheepdog was informed to our members and next year there will be more events on that special day.

Specialty Icelandic Sheepdog show

Our annual dog show was held in Helsinki 30th July 2016. We had a judge all the way from Iceland - Sóley Halla Möller. BOB was a lovely bitch Tassumäen Kleima and BOS a handsome male Tuulenpuuskan Petur Naskursson. There were 86 dogs in official classes and 11 dogs in unofficial classes. We were happy to have some Swedish dogs in the show, as well.

BOB Tassumäen Kleima

BOS Tuulenpuuskan Petur

Dog shows are of course an important hobby for our members, both international and national shows have a great number of dogs attending.

Agility, obedience and rally obedience

There were Icelandic sheepdogs competing in agility, obedience, rally obedience and herding. Agility is a very popular sport and more and more compete every year, altogether 26 dogs competed in 2016. Competing in obedience has been less and less every year (only 12 dogs competed in 2016), but rally – obedience has become more popular, altogether 26 dogs.

Herding

Herding has also become more and more popular. There were 3 herding courses organized by our club. Two dogs passed the Finnish Kennelclub's official herding ability test. The herding preliminary test was passed by four dogs. This means that they may attend official herding competitions in the future. ISIC herding champion in Sweden in August 2016 was Vestanvindur Draumur Kátsson, who came to Finland from Sweden.

Other

Jorunn Vorperla has participated in skjoring, Rastihaukun Djarfur has completed a search test. Behavior test was taken by two dogs and character test 26 dogs. In northern Finland we had a weekend get-together where there was training in water rescue, nose work and search etc.

Homepages

This year we finally made a decision to renew our homepages, which desperately needed updating and a more modern look. Our new website is www.islanninkoirat.fi

Further comments:

This year pick up only dogs who is still somehow active in studding. We have had bigger matadors earlier but these one making situation now. We also have dogs who have more offspring in first generation, but their offspring aren't active anymore. Here are dogs which might be threat in future.

Further comments:

The Finnish Kennel club came up with a new rule that the knee result is valid only for two years if the dog is under three years when the knees are checked. This means that many dogs have been – and will be - checked two times. 2012 is the first year for this rule, so the figure also includes double-checked dogs. There wasn't any tool to pick only one result from each dog.

Descripted dogs	26/-	27/9	19 / 2	26 / -	22 / 3
In total	26	36	21	26	25

Further comments: The first number is the “old version” Finnish character tested dogs and second is for MH- tested dogs. MH-test doesn’t work very well in Finland. Hopefully we will find a solution to this problem in the future and get more dogs to MH.
