Imports

Iceland	-					2
Germany	-		1	1	3	1
Switzerland	-	1				
Denmark	-				1	
Poland	-	1				

It is very difficult to know about imports, as dogs only have to be registered with ÖHZB if they are used for breeding. So we don't know every dog that was imported to Austria.

Breeding rules in Austria: The breeding rules in Österreichischer Klub für Spitze und Spitzarten allow a bitch to produce 4 litters during her lifetime. For a male dog the number of litters is also limited to 8 litters. These rules are strictly taken into account and governed by our club. This means that we have only a few dogs that come close to the ISIC breeding limits or exceed them.
